4. 9:10 Discussion: We'd like CAWG's priorities for the near and farther future to emerge by focusing on how each of our many groups fits into the larger picture of climate action. (e.g. 350.org has its organizing role nationwide. EVs have a role. Resilient Communities does its unique thing.) We need to better understand each other, duplicate activities where needed, but definitely fill in the blanks where work needs doing but isn't. Please bring thoughts about your groups. And especially how you want to prioritize CAWG 's focus. (Attachment 2)
  
5. 10: 00 Discussion: The bureaucratic/political/funding world where Marin climate change work happens. We have the elements of a diagram of the State, regional and local agencies and jurisdictions where decisions are made. We want not just names but working relationships and better understanding of how each works. MCE, CDA, CPUC, Calif. OPR. (Attachment 3)
